Harmon Construction, Inc.
PROJECT MANAGER / ESTIMATOR

EDUCATION

- Tuskegee University - Tuskegee, AL
B.S. Degree Construction Management, 1995
- Georgia Tech - Atlanta, GA
School of Project Management, 2001
- Southern Tech - Marietta, GA
Civil Engineering

EXPERIENCE

I have 9 years of experience in general contracting and construction management, successful project monitoring/line item budgeting and forecasting, pre-project evaluating, subcontractor/contract negotiating, public relations, planning and operations. I have experience with a broad range of construction types such as design/build, residential, commercial and industrial. This broad range of experience provides me with the diverse knowledge necessary to effectively manage any type of construction project including: scheduling, cost control, Logistic planning, and materials and equipment procurement. Utilizing the state of the art equipment, information management systems and proven processes have made my projects run efficiently and effectively.

WORK HISTORY / EXPERIENCE

2000 – Present	HARMON CONSTRUCTION, INC. Project Manager
1995 – 2000	HARMON CONSTRUCTION, INC. Project Estimator

Through my extensive work history, I have developed an expertise in coordinating information between the client, design team, and field staff; estimated projects ranging from \$50,000 to \$9.8 million.

I have the ability to work with both the client and the design team to make decisions that will positively affect both the project schedule and budget.
